WHERE TO TURN FOR TEENS

2018-2019

A PROGRAM OF
CRISIS CLINIC
CRISIS CONNECTIONS
Teen Link began in 1996, after the tragic death of Audra Letnes, the daughter of a Crisis Connections employee. Audra was only 16 when she was murdered by her boyfriend who had been abusing her for over a year. Aware of what was happening, her mother tried to get her help, but Audra had difficulty connecting with the services that were available at the time. Like many youth, Audra wasn’t comfortable opening up to the adult-led programs and there were no options that would provide peer-to-peer support.

Because of her experience working at Crisis Connections, Audra’s mother knew the power of making even one meaningful connection. In Audra’s memory and as a way to ensure similar tragedies could be prevented in the future, she worked together with Crisis Connections to develop the Teen Link program, designed to be a safe place for any young person to connect with other youth for resources and emotional support for whatever comes up in their lives. Today, Teen Link still operates this helpline, answering calls and online chats from teens needing support, and also delivers youth suicide prevention presentations at schools throughout King County.

**How TEEN LINK Began:**

Teen Link began in 1996, after the tragic death of Audra Letnes, the daughter of a Crisis Connections employee. Audra was only 16 when she was murdered by her boyfriend who had been abusing her for over a year. Aware of what was happening, her mother tried to get her help, but Audra had difficulty connecting with the services that were available at the time. Like many youth, Audra wasn’t comfortable opening up to the adult-led programs and there were no options that would provide peer-to-peer support.

Because of her experience working at Crisis Connections, Audra’s mother knew the power of making even one meaningful connection. In Audra’s memory and as a way to ensure similar tragedies could be prevented in the future, she worked together with Crisis Connections to develop the Teen Link program, designed to be a safe place for any young person to connect with other youth for resources and emotional support for whatever comes up in their lives. INTRODUCTION

Where to Turn for Teens (WTTFT) is a resource guide that was created specifically for youth who are seeking personal empowerment with the support of others. The agencies listed in the WTTFT can link youth to organizations that provide a wide variety of services. The goal of WTTFT is to make sure teens are aware of the many youth-friendly resources that exist to serve individual needs.

Using Your WTTFT Guide:
There are two ways to look up information in the WTTFT—the Table of Contents and the Index. The Table of Contents is helpful if you know the type of services you are seeking. If you already know the name of the agency, using the alphabetically arranged Index can be a quicker, more efficient way to search.

Tips for Dealing with Agencies/Organizations:
Before calling agencies, it is a good idea to have a list of questions written down that you hope to have answered. Some important questions to ask agencies are:

- What area do you serve?
- When are you open?
- Where are you located?
- Do I need parental consent?

There is a Notes section at the back of the book where you can write down the name of the person you spoke with and all of the information you receive.

If you reach voicemail, speak slowly and clearly when leaving a message. Be sure to include your full name, phone number, and a brief explanation of your questions/concerns.

ABOUT TEEN LINK

The goal of Teen Link is to empower youth by supporting them as they make in making healthy decisions.

Teen Link Help Line 1.866.TEENLINK (833.6546)
Teen Link is a confidential, anonymous and non-judgmental telephone help line answered by teens each evening from 6-10pm. Teen volunteers are trained to listen to your concerns and to talk with you about whatever is on your mind. No issue is too big or too small. Phone workers also have access to an extensive database and can give you information on agencies serving youth in the King County area.

After hours, callers have the option of being transferred to the Washington Recovery Help Line or leaving a message on the Teen Link voicemail. When leaving a message, please include your name, phone number, and information about your concerns. Because of confidentiality, Teen Link phone workers will not leave a message when calling back, unless you specify that it is okay to do so.

Teen Link Chat
In addition to our telephone help line, Teen Link offers Teen Link Chat, available through our website at www.866TEENLINK.org. Much like the line, teens can use Teen Link Chat to seek support from our teen volunteers on a variety of issues, including: bullying, drug and alcohol concerns, relationships, stress, and other teen issues. Teen Link accepts chats from 6-9:30pm every day of the week. Teen Link Chat does not work well on cell phones, so we ask that you log on with a computer to chat with us.

King County 2-1-1
Online resources are available to teens who want to use the Internet to find out more about health and human services in King County. To search for resources online, go to www.crisisconnections.org and click on “2-1-1 Community Resources Online.”

Washington Recovery Help Line
As part of the Washington Recovery Line, Teen Link provides support to youth across Washington State who have questions about substance abuse, problem gambling, or mental health. See the “Alcohol & Drugs” section for more information.
Teen Link Trainings (TLTs)
Teen Link Trainings are offered to schools and agencies serving youth in King County. The curriculum is presented by trained Teen Link staff and may also be co-facilitated by a professionally trained youth volunteer. TLTs include an overview of Teen Link and statistics on youth suicide in a discussion-based model. Students are encouraged to talk openly about stress, coping mechanisms, warning signs, and methods of intervention with someone who may be considering suicide. To schedule a TLT, please call Crisis Connections at **206.461.3210**.

Where to Turn for Teens (WTTFTs)
*Where to Turn for Teens* is updated annually and published in September. This resource guide is an effective way to connect young adults with agencies serving youth. If you are interested in ordering WTTFTs, please call **206.461.3210**, M-F, 9am-5pm.

If you work for an agency listed in WTTFT and need to update your information, please call the Resource Center at **206.461.3210** or email them at: resourcecenter@crisisconnections.org.

Teen Link Volunteer Opportunities
Volunteering is a great way to develop leadership skills, learn about community resources and connect with other youth. Info sessions are the 1st Sunday of each month. For more information about volunteering, call **1.866.TEENLINK** between 6-10pm or check out our website.

Volunteer Positions
- **Outreach Worker** - Represent Teen Link in your school and community. May include opportunities to assist with TLTs
- **Phone Worker/Chat Specialist** - Provide emotional support and referrals to other teens who call the help line or log onto Teen Link Chat.
- **Peer Advisory Board Member** - Be part of planning Teen Link's future by keeping Teen Link youth-driven and attentive to the needs of youth.

Internship/Externship
Adults can gain agency and practice experience as a volunteer phone worker supervisor. This experience goes towards clinical hours needed to obtain a college-level degree in Behavioral Health or Mental Health Counseling or to become a state-licensed social worker.
ALCOHOL, DRUGS & ADDICTION

According to research by the National Institute on Alcohol Abuse and Alcoholism, adolescents who begin drinking before age 15 are four times more likely to develop alcohol dependence than those who begin drinking at age 21.

Warning signs of alcohol and drug dependency/abuse include:

- Getting drunk/high frequently
- Lying about alcohol/drug use
- Blacking out and experiencing lapses in memory
- Believing that alcohol/drugs are necessary to have fun

For tips on how to help someone who you think may be abusing alcohol and/or drugs, please see How to Help on page 24.

In association with the Washington Recovery Help Line, Teen Link provides help to teens struggling with alcohol, drugs, and gambling. Call 1.866.TEENLINK for help between 6-10pm, or call the Washington Recovery Help Line 24 hours a day at 1.866.789.1511.

AT-RISK YOUTH

Children and young adults who are prone to becoming involved in crime, domestic abuse, drugs and alcohol, early pregnancy, school-related problems, and suicide are defined as at-risk youth. In response to growing youth crime and violence rates, many programs have been developed for at-risk youth. Here are some agencies and programs where teens can participate in recreation, education, and community-based activities without fear of violence.

BIRTH CONTROL/PREGNANCY

According to the National Campaign to Prevent Teen Pregnancy, over 20% of teens in the U.S. get pregnant at least once by the age of 20. Many of these pregnancies are unplanned, bearing health and socioeconomic risks for people and their communities.

Because a person can get pregnant at any time of the month, abstinence (not having sex) is the only 100% effective method of birth control. If you think you may be pregnant, it’s important to make an appointment to get tested by a health care professional as home pregnancy kits are not always
accurate. In Washington State, teens 13 years and older do not need a parent's/legal guardian's permission to be tested for pregnancy or STDs, or to access birth control methods. If you are pregnant, seek emotional support from someone you trust, and talk with a medical professional about your options. Birth control and sexual health services may also be available at the school-based health centers listed on page 14.

⇒ For the consulting nurse line, please see Health Concerns on page 14.
CHILD ABUSE

Children who experience child abuse and neglect are more likely to experience teen pregnancy or become involved in criminal activity. According to Childhelp, abuse and neglect are often linked to substance abuse and psychological disorders.

There are four primary types of child abuse:

• Physical abuse  • Emotional abuse
• Sexual abuse  • Neglect

While the first two categories get the most attention, neglect is the most common form of child abuse, accounting for more than 75% of all cases of child maltreatment. No child or youth deserves to be abused.

COUNSELING

Confidential, low-cost counseling and support groups are available throughout King County. Talking about your problems with a professional or seeking support from others can help you deal with your feelings in a healthy way. In Washington State, youth may access confidential counseling at age 13 without parent/guardian consent.

**Teen Link** and the **24-Hour Crisis Line** do not provide ongoing counseling; however, callers can use both lines to gain additional support between counseling appointments. Phone workers are professionally trained to talk to a caller about whatever is on their mind. Although some callers discuss topics as serious as suicide, callers also use the line to talk about topics such as relationships, mental health, abuse, and other emotional concerns.

The **Washington Warm Line** is peer-to-peer support for people living with emotional and mental health challenges that is answered by adult volunteers.

DATING & DOMESTIC VIOLENCE

Dating violence is any form of emotional, verbal, psychological, physical, or sexual abuse by a romantic partner. Victims often experience abuse that gets more severe over time as the abuser tries to control or dominate them.

Characteristics of an abusive relationship can include:

- Jealousy and possessiveness
- Name-calling and put-downs
- Pressure to engage in activities (sexual or other)
- Physical threats to hurt you or themselves
- Choking, hitting or other injurious behavior

Fear, threats, shame, and the belief that an abuser’s behavior will change often contribute to the victim feeling unsure about talking to someone about their situation. It is important to remember that there is support available. No one deserves to feel unsafe in a romantic relationship.

For tips on how to help someone who you think may be in an abusive relationship, see How to Help on page 24.

EATING DISORDERS

Thirty million people suffer from a clinically significant eating disorder at some point in their lives, including anorexia, bulimia, binge eating disorder or other associated dietary conditions.

~ NATIONAL EATING DISORDERS ASSOCIATION

Eating disorders involve extreme emotions and behaviors surrounding food and weight issues. They can arise from psychological, emotional, social, and familial situations, but they have no one reason or cause. By controlling food intake, people with eating disorders attempt to gain control over factors such as: low self-esteem, feelings of inadequacy, and anxiety. Eating disorders can become life threatening, so getting professional help is important.

➤ For tips on how to help someone who you think may have an eating disorder, please see How to Help on page 24.

Education, Advocacy and Prevention

EDUCATION

Only 79.3% of all Washington State public school students from the class of 2017 graduated from high school in four years.

~ WA STATE OFFICE OF SUPERINTENDENT OF PUBLIC INSTRUCTION

Many teens have difficulties at school and need more support for their education. There are many agencies that offer tutoring programs, testing for learning disabilities, referrals for ELL (English Language Learners), and information about the GED (General Education Development) Certificate.

For tutoring, ESL, and GED referrals, call King County 2-1-1 or call:
Greater Seattle Bureau of Fearless Ideas ... 206.725.2625, www.fearlessideas.org
GED Services

King County Library System............................. 1.800.462.9600, www.kcls.org
EMPLOYMENT & JOB TRAINING

Almost 55% of young people ages 16 – 24 had jobs in the summer of 2017.

- If you are 14 or 15 years old, you can work up to three hours on a school day.
- If you are 16 or 17 years old, you can work up to four hours on a school day.
- If you are 18 years or older, you may perform any job with no restrictions.

When applying for a job, it is important to have the following information available:

- Form of identification including: a driver’s license, state-issued ID, birth certificate, or passport
- Social Security number
- Current address and phone number
- Name and contact information for adults/professionals who you can use as references

HEALTH CONCERNS

Free, low-cost and pay-what-you-can health care options are available to youth. If you do not want a parent or legal guardian to know you are seeking services, make sure to ask the agencies about their policies regarding confidentiality. Some clinics may require a parent’s insurance information for primary health care even though they may not require this information for confidential birth control and sexual health services.

HOMELESSNESS & RUNAWAYS

On one single night, in January 2018, over 1,500 unaccompanied youth and young adults were known to be experiencing homelessness in King County.

Runaway youth come from every socioeconomic and racial group in America. More often than not, youth experiencing homelessness have not chosen to live on the streets. Many youth turn to the streets because of a combination of abuse, family problems, and dysfunction within their homes that cause them to feel unsafe. Drop-in centers, homeless shelters, hot meal programs, case management, and other services are available to help youth take care of themselves and/or get off the streets.

King County 2-1-1 .......................................................... 2-1-1 or 1.800.621.4636
Call for Assistance in Finding Shelter, Food, etc.

DROP-IN CENTERS

Drop-in centers provide a variety of services to homeless youth. Services often include, but are not limited to: case management, laundry, showers, and hot meals. If you are unsure of specific services, call ahead to find out about individual programs.

TRANSITIONAL HOUSING
Transitional housing offers youth a safe place to live while they work toward acquiring necessary life skills, self-sufficiency, and gainful employment. Please be aware that programs often have wait lists for acceptance, and most programs require a referral from a case manager or shelter program.

Coordinated Entry for All.........................................................Call 2-1-1

All transitional housing programs specifically serving young adults in King County are now accessed through Coordinated Entry for All (CEA). Young adults ages 17½ - 24 can call 2-1-1 to get CEA program details and set an intake assessment appointment. Young adults can also visit the website for CEA drop-in hours and assessment locations in King County and to get information on setting a CEA intake appointment at one of those locations. If you are already enrolled in case management services, you may also work with your case manager for additional options.
Screening locations can be found at:

Nexus Youth & Families, New Horizons, Friends of Youth, Orion Center, Teen Feed, Therapeutic Health Services, UDYC, PSKS and YMCA Young Adult Services Drop In Center.

LEGAL SERVICES & YOUTH RIGHTS

Despite what society and other members of the community may tell you, youth under age 18 do have rights. Specific agencies can provide you with more information about juvenile criminal laws, labor laws, educational rights, and emancipation. These agencies advocate for youth and ensure that young adults are treated in a just and fair way.

Lesbian, Gay, Bisexual, Transgender, Questioning and Intersex (LGBTQI+) youth are frequently targets of discrimination, violence, and bullying/harassment both at school and in the community. Societal prejudice and disapproval from loved ones can be isolating and hurtful to teens that identify as LGBTQI+. Support groups, drop-in centers, activities, and counseling services are available to promote acceptance and provide a safe environment of understanding.

RAPE & SEXUAL ASSAULT

By the age of 18, one of every four girls, and one of every six boys has been sexually assaulted. One in two transgender individuals are sexually abused or assaulted at some point in their lives.

~ HARBORVIEW CENTER FOR SEXUAL ASSAULT AND TRAUMATIC STRESS & SEXUAL VIOLENCE IN THE TRANSGENDER COMMUNITY SURVEY

Due to the violence that often accompanies a rape or sexual assault, it is important for a survivor to go to the emergency department of their local hospital to be examined. At the hospital, a social worker will discuss the survivor's options, including evidence collection. Because of this, it is helpful if the survivor does not shower, clean up, or change clothes before having an exam, as doing so may remove any remaining evidence.

Additionally, the doctor can discuss medications that are available to reduce the chances of contracting a sexually transmitted infection (STI) or getting pregnant. If the survivor is under the age of 18, the law requires the police to be notified. However, going to the hospital and submitting a report does not necessarily mean that charges must be filed against the perpetrator or that participation in a legal case must occur. Counselors can talk about available alternatives and help the survivor decide what the best choice is going to be for them.
For tips on helping someone who you think may have been sexually assaulted or raped, please see How to Help on page 24.

STDs (INCLUDING HIV/AIDS)

Compared to older adults, sexually active adolescents and young adults are at a higher risk for acquiring STDs. Recent estimates suggest that 15-24 year olds acquire nearly half of all new STDs.

~ CENTER FOR DISEASE CONTROL

Many teens are unaware of the dangers associated with sexually transmitted diseases (STDs) and how to prevent or identify them. Talking with your partner about STDs and getting tested regularly are important parts of being sexually active. Myths exist regarding all STDs, but especially Human Immunodeficiency Virus (HIV) and Acquired Immune Deficiency Syndrome (AIDS). You cannot get HIV from hugging, drinking out of a shared glass, or using a public toilet.

There are three primary ways of contracting HIV:

- Unprotected sex with an infected individual
- Sharing needles
- From mother to unborn child

Suicide is the second leading cause of death in the state of Washington for 10 to 24-year-olds and the third leading cause of death nationally. ~ WASHINGTON STATE DEPARTMENT OF HEALTH

Warning signs for suicide include:

- Changes in eating and sleeping patterns
- Dropping hints or talking about suicide; making a plan
- Giving away prized possessions
- Being very obsessive and perfectionistic
- Engaging in risky behaviors (driving recklessly, increased drug and alcohol use/abuse, etc.)

Consider the following questions to help you determine the urgency:

1. Are there three or more warning signs?
2. Have the warning signs been present two weeks or longer?
3. How extreme or severe are the warning signs?

If you are concerned that you or someone you know may be suicidal, it is important to address the situation immediately. Mentioning suicide will not give the person the idea or push them over the edge. Talking about your concerns can prevent a suicide attempt from occurring and can save a life.
HOW TO HELP

STEPS 1 & 3 CAN BE USED TO HELP A FRIEND IN ANY SITUATION

1. Show you care
   • Talk to the person you are concerned about in a caring manner
   • Be specific about the warning signs you have noticed
   • Listen without judgment

2. Ask the question directly
   • “Are you thinking of suicide?”

3. Talk to an adult you trust

These are the initial steps toward ongoing mental health care. Every situation regarding suicide is different. Call 1.866.TEENLINK to talk to a trained phone worker in more detail about how to get help.

If you need immediate crisis intervention services or feel like you need to talk to someone right away, these are numbers you can call to discuss your concerns:
